

SPARK REGIONALS

Question Paper

----- Class 7 & 8 -----

Shaastra- The annual technical festival of IIT Madras, is a completely student organized festival and acts as a didactic standpoint for the footfall of **50,000** visitors attending the event.

The Shaastra team believes that the future of this world depends on the shoulders of young school children. This program aims to inspire young, brilliant minds by illustrating what lies ahead for them in the world of science and technology.

Shaastra, **IIT Madras** proudly presents **SPARK**, our flagship event for school students, conducted with participants from over **20+** cities across the nation!

Structure of Spark

Shaastra Spark Round 1:

- It is a quiz to test the student's Aptitude, Logical and Mathematical Reasoning skills and happens in over 20+ cities all over the country.

Shaastra Spark Round 2 (Online Case Study Competition):

- A problem statement will be provided to participants. Teams must come up with an innovative solution for the same.
- Further details will be conveyed later.
- The top shortlisted teams will be invited to participate in the Spark Junior Championship (SJC) at Shaastra, IIT Madras.

Shaastra Spark Junior Championship (SJC):

- Selected teams from Round 2 will be invited to IIT Madras on a sponsored two-day trip.
- Finalists will participate in competitions and will get a chance to interact with IIT Madras Professors and students to ensure a holistic learning experience.
- Further details regarding the competition will be provided later to the selected teams.

5. In the given diagram, square represents women, triangle represents sub-inspectors of police and circle represents graduates. Which numbered area represents graduate women who are sub-inspectors of police?

- A) 5
B) 8
C) 3
D) 13

II. Logical Reasoning (MCQs)

1. Priya remembers that she saw her maternal aunt on Friday after the 23rd of a month. If 6th of that month fall on Sunday, then on what day of the week did she meet?
- A) 24th
B) 25th
C) 27th
D) 29th
2. Direction: In each of the following questions, there is a series of five figures. In order to continue the series, choose a figure from the options that could be the next term of the series.

Problem Figures

- A)
- B)
- C)
- D)

3. Direction: In each of the following questions, identify the pattern and find out the missing character.

P	S	?
O	R	U
M	P	S

- A) I
B) O
C) L
D) V
4. Ashok is younger than Prabir and Gopal. Sohan is younger than Prabir but older than Gopal. Which of the following statements is definitely true?
- A) Ashok is older than Sohan
B) Sohan is the oldest among them
C) Gopal is younger than Ashok
D) Prabir is older than Gopal
E) None of these

5. Direction: In the following question, from amongst the figures marked (A),(B),(C) and (D), select the one which satisfies the same condition of placement of the dots as in Fig. (X).

III. Cognitive Skills (MCQs)

Read the paragraph below and answer the question that follows:

Jena was excited for the weekend getaway. She had planned a trip to the beach with her friends. They were going to have a picnic and swim in the sea. Jena forgot to bring her sunscreen, so she had to borrow some from her friend. Despite the mistakes, they had a wonderful time and enjoyed the sun and sand.

They also visited a local cafe for lunch, where they tried some delicious pastries. Afterward, they took a walk through the park and saw some beautiful flowers. On the way home, Jena realized she had left her bag at the cafe, but luckily, they were able to retrieve it.

- How many mistakes are there in the above paragraph? (NOTE: there are no grammatical errors, only spelling errors)

A) 9	B) 10
C) 11	D) 12
- A 3-digit number lock with the password xyz has to be guessed by detective Nivedha. She has the following clues:
 - 147- One number right in the wrong place.
 - 189- One digit is right in the right place.
 - 964- Two digits right in the wrong place.
 - 523- All digits are wrong.
 - 286- One digit is right but in the wrong place.
 Find (x+y)z?

A) 135	B) 117
C) 99	D) 108
- Three friends Akshith, Vasudha and Shreya have 3 different kinds of pets-a dog, a parrot and a fish.
 - Akshith takes his pet for a walk.
 - Vasudha likes listening to her pet speak.

What pet does Shreya have?

- A) Fish
- B) Dog
- C) Parrot
- D) Can't find from the given information

4. Which Harsh, Harshith and Aditya were caught eating the last piece of cake from the fridge. One of them stole it alone and shared it with others. The one who stole lied while the other two told the truth.

Harsh: Aditya did it

Harshith: Harsh is lying

Aditya: Harshith is telling the truth.

Who stole the cake?

- A) Harsh
- B) Harshith
- C) Aditya
- D) Can't find from the given information

5. Which Work out which option is the top-down 2D view of the following 3D figure:

The 3D figure consists of four cubes:

The bottom layer has three cubes arranged in an "L" shape.

The top layer has one cube placed on top of the intersection where the two arms of the "L" meet.

- A) Three squares arranged in a straight horizontal line.
- B) Four squares arranged in an "L" shape.
- C) Three squares forming an "L" shape with one square overlapping at the intersection.
- D) Four squares forming a "T" shape.

IV. Theme Based Questions (MCQs)

1. Which of the following statements is true about global warming?

- A) Global warming has led to large-scale deforestation
- B) Global warming has led to a rise in the sea levels
- C) Global warming has led to a rapid increase in the population across several countries
- D) Global warming has led to a huge amount of waste generation

2. Which of the following statements about climate change is true?

- A) Plantation can be a preventive measure to tackle climate change
- B) The usage of cycles instead of bikes or cars for transportation can be a preventive measure to tackle climate change
- C) The usage of organic products can be a preventive measure to tackle climate change
- D) All of the above

3. Which of the following statements is correct?

- A) Tides are a conventional source of energy
- B) The Sun is a conventional source of energy
- C) Wind is a conventional source of energy
- D) Dried dung is a conventional source of energy

4. What are all the main sustainability objectives?

- I. Poverty and hunger eradication
 - II. Higher education and healthcare standards, notably in terms of water quality and sanitation.
 - III. Gender inequality
 - IV. Long-term economic growth that promotes employment and strengthens communities
- Code:

A) I, II & III
C) I & III

B) I, III & IV
D) I, II, III & IV

5. With respect to "Sustainable development" which amongst the following statements is false?

- A) It makes the world a better place to thrive.
- B) It emphasizes the judicious use of natural resources.
- C) It advocates the expansion of agriculture.
- D) More than one of the above
- E) None of the above
